The rest of 2010 looks great for subscribers of *ESQ*, with an upcoming special edition on the *40th Anniversary of Sunflower...* as well as a new *ESQ* pod-cast series titled *ESQcast*. Subscribers of *ESQ* can look forward to more quality reading and fun online, and that's what each edition delivers for the fans in celebration of The Beach Boys' amazing legacy.

Endless Summer Quarterly was established in 1987 by editors emeritus Rick Edgil and Phil Mast in San Diego. Editor emeritus Lee Dempsey and current editor David Beard began publishing in Charlotte, NC with just over 200 subscribers in the summer of 1993. Within a few years the East Coast team had established a new following of readers with an incredible increase of over 1,000 subscribers. With the passing of Carl Wilson in February of 1998, *ESQ* maintained its focus on the band's history as well as covering the group's individual endeavors. Considered the world's leading Brian Wilson/Beach Boys/Jan & Dean publication by the group members, their associates and historians worldwide, *ESQ* continues to create historically memorable editions with its positive vision and celebration of The Beach Boys' great legacy.

ESQuarterly.com now includes a complete back issue order form (dating 15 years back to 1993) with a breakdown of every edition as a downloadable PDF file.
